

The Greater Buffalo United Accountable Care Organization (GBUACO)

Job Title

Practice Facilitator

Job Location

The Greater Buffalo United Accountable Healthcare Network (GBUAHN)

564 Niagara Street, Bldg #2

Buffalo, NY 14201

Job Description

The Practice Facilitator will conduct practice facilitation and advanced informatics for GBUACO, GBUAHN and Urban Family Practice. They will implement provider outreach, recruitment, assist with preparation and instruction of evidence-based guidelines with primary care providers and participate in quarterly learning groups. The Practice Facilitator will also work on the Value-Based Payment (VBP) team reviewing high cost/utilizer patients with Patient Health Navigators (PHN) based on Qualmetrix and Tableau software. This information will then be used to create interventions with PHNs and determine the root cause of the high utilization and how to overcome it.

Primary Responsibilities

Conduct ongoing, practice facilitation and clinical support on evidence-based guidelines for treatment with providers, office staff, Health Home care coordinators, and co-located behavioral health staff. This support will consist of the development of workflows and staff/provider educational seminars.

Assist in conducting rotations at each practice to coach and assist with: (1) implementation of practice guidelines and clinical workflows; (2) onsite support for providers as they and their staff deliver care; and (3) convening and running case conferences among the provider, counselor, and care coordinator.
