

The Greater Buffalo United Accountable Care Organization (GBUACO)

Job Title

Quality Improvement Coordinator

Job Location

The Greater Buffalo United Accountable Healthcare Network (GBUAHN)

564 Niagara Street, Bldg #2

Buffalo, NY 14201

Job Description

The Quality Improvement Coordinator will have data analysis and reporting responsibilities. The Quality Improvement Coordinator should be proficient in Microsoft Office and work respectfully in a team setting. They will be responsible for analyzing the data and transforming information into a concise, easily understood presentation. Based on these presentations, they must actively look for areas of improvement and develop strategies on how to achieve those improvements. Once those strategies are compiled, they are responsible for follow up and ensuring that all practice facilitators understand the changes that need to be made. They will then actively work with the practice facilitators to adhere to those changes.

Primary Responsibilities

Compile, interpret and analyze health care data - this includes both medical data and financial data.

Actively look for areas of improvement within the data set.

Develop reports.

Create presentations of the data and present it in a meaningful way.

Follow up with the various practices and actively work with each on improvement strategies.

Qualifications

Bachelor's degree in Mathematics, Statistics, Healthcare Administration, or related field.
